

We're taking immunization workflow mainstream.

Supported by the CDC, the HIMSS [Immunization Integration Program \(IIP\)](#) — a collaborative effort of Chickasaw Health Consulting, LLC, HIMSS and Drummond Group — enhances electronic health record systems and other clinical software to improve U.S. immunization rates.

Learn more about the IIP and discover how immunization leads to better health outcomes, reduced costs and higher clinician productivity during these activities at [HIMSS18](#):

Recognition Testing Improves Immunization Workflow and Data
